Subject: Hurricane Dorian

Mr. Jacobs,

As a resident on a Atlantic coastal town that just had Hurricane Dorian pass over, I find it disgusting and harmful to the public the political games NOAA is playing for our childish President. You are eroding the public trust necessary to protect the citizens you serve. The President has lied and tried to cover up that lie now with your assistance. We the people demand that you set the record straight and earn back the trust you so frivolously gave away. As someone who has been through more hurricanes than you've ever experienced, it's imperative upon you to do your duty.

Sincerely,

Steven Pasquantonio
Topsail Island NC
